LETTER FROM THE FOUNDER

Dear Principal,

Welcome to Achievements Educational Services, an educational company that creates and publishes high-quality curricula and materials for educators to use in their classrooms. All our content is geared to meet the cultural needs of religious boys and girls schools.

Our line of English Learning curricula is a powerful tool for developing language skills through engaging and educational content. The wide range of products available ensure that a teacher can find supportive literacy tools for students of all grades and all proficiency levels.

At Achievements, it is our belief that students can best strengthen their English language skills with content that both draws their interest and stimulates their minds. The more a student is engaged and motivated to truly comprehend the material, the more they will devote effort into decoding and deciphering challenging words and phrases. In addition, rather than employing trivial content that has no value outside of language learning, all our content explores worldly themes or literary studies, providing an added educational value that helps broaden the scope of a student's general knowledge.

We aim to create curricula of the highest caliber that is enjoyed by students and teachers alike.

We invite you to browse through our Curricula Catalog 2025. It is our hope that BE"H you will find our products very helpful for your school's English language programs.

Sincerely,

Rabbi Naftali Frankel

CEO, Founder

Voyages: A Literature Collection

Achievements is pleased to announce the publication of VOYAGES: A Literature Collection, which is comprised primarily of FICTION literature.

This literature curriculum supports English literacy. In addition, it builds analytical reading skills as well as an understanding of the literary elements and various techniques employed by authors. Stories, essays, and poems (by religious authors only) were carefully curated so as to be suitable for religious schools.

The course supports fundamental analysis, appreciation, and critique of literary materials and helps students gain an appreciation of the English writing process. Some of the literary concepts covered:

- Plot, setting, characterization, and theme
- Internal vs. external conflicts
- Similes, metaphors, and idioms
- Point of view and imagery
- Poetic devices such as rhythm, rhyme, and onomatopoeia

The Achievements Literature Curriculum features:

- A large assortment of short stories, essays, and poems by well-known, religious authors
- Many literary elements and devices highlighted in every lesson
- Comprehensive English vocabulary support
- Reviews that include literary ideas and vocabulary words
- Exciting drama section featuring a specially written play
- Lesson plans that support completing an English novel over the course of the year

Each course comes with a USB containing the following:

- Supplemental lessons, including a novel unit
- Unit tests
- Vocabulary reviews

For the Green edition, the USB also contains:

- Clean copies of the stories for prereading and tests
- Worksheets (prereading, literary terms)
- Additional lesson review materials

This series is geared towards grades 8 and 10. Grade 5 will be available in June.
